TRACK IT!

College Planning Curriculum

Each of the ten units includes:

- Detailed Lesson Plan**
- Microsoft PowerPoint Lesson Presentation**
- Interactive Session Worksheet**
- Student Fact Sheet**
- Parent Article**
- Organizational Tool**

INTRODUCTION

Introduce students to the TRACK IT! Curriculum by clearing up old college admissions myths and help them plan for a purposeful four years of high school. Includes timelines, glossary and more!

STUDENT SELF ASSESSMENT

The search for the right college begins with exploring oneself, rather than a list of colleges. Assist students in developing their Strengths Based Profile.

ACADEMIC PLANNING

It is critical to have a road map for academic planning. Print and review your High School Curriculum and admission requirements and learn to plan for prerequisites and electives.

STANDARDIZED TESTS

Review the differences between the ACT & SAT tests. Introduce the SAT Subject & AP tests. Encourage students to make a plan for testing!

COLLEGE SEARCH

Help your student exercise their power of choice! Students develop their Key College Criteria and learn how to narrow their choice of colleges to a manageable list to explore. Prepare families for meaningful campus visits.

COLLEGE ESSAYS

Personal essays are the most time consuming part of college applications, and typically a big source of stress for students. Assist students in gaining insight into the makings of a strong personal statement that reflects their strengths and personality.

COMMUNICATIONS

One of the best ways to research potential careers is to “try them on”. Assist students in preparing resumes, professional email correspondence, and powerful online profiles to initiate their interest and career development.

APPLICATIONS

Managing your college applications can be a daunting task. Provide students with a means of tracking applications, essays, letters of recommendation, transcripts, standardized tests, and more!

SCHOLARSHIPS

Students can be awarded scholarships for any number of qualities: grades, athletics, outstanding interests, and more. Help students organize efforts to pinpoint their strengths and launch their scholarship search today!

FINANCIAL AID

Many families are over-whelmed with the thought of financing college education. The first step is to understand the costs. Then one can look at options such as federal, state, and college specific aid., as well as student loans and other forms of funding.
